

Secure Cabinet

for protection of documents and valuables

Looking for a high specification cabinet to protect valuables? Well, the Secure Cabinet range does just that.

Constructed from high specification materials the cabinet can be used to store a wide range of valuable bulk items. Goods recommended for storage include mobile phones, phone cards, cigarettes, etc. All in all, the Secure Cabinet is another good example of SecureLine implementing value in its products.

Models

The Secure Cabinets are available in four sizes with single or double door. All are equipped with removable shelves as standard to optimise storage possibilities.

Construction

The single wall body is constructed from 4 mm solid steel plate. Doors are secured by 3-way moving bolt work, with a fixed dogging bar securing the hinge side of the door. All moving bolts (side, top and bottom) are of 25 mm diameter and chrome plated and an additional relocking device is fitted in case of physical attack.

Locking

All models are secured by a double bitted high security key lock (Class A, ECB•S / ENV 1300 approved) as standard. Provision is made to mount a secondary lock to customer specification.

Additional features

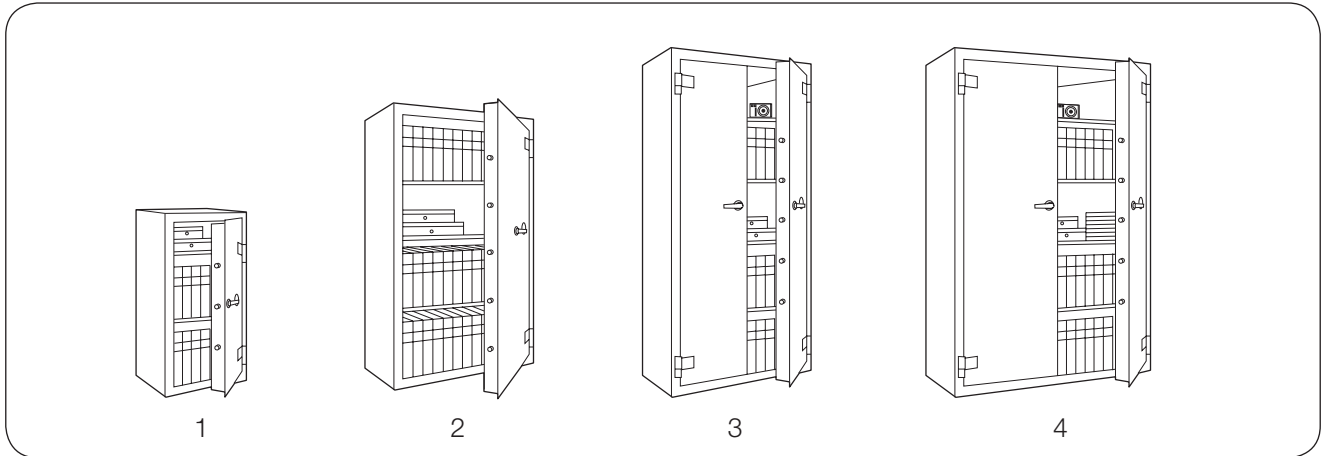

Anchoring points in the base enables the cabinet to be anchored to the floor.

Design

The cabinets will complement any user environment and are supplied in two-tone colour finish of light grey and dark grey.
