1. Side inset handles allow the unit to be moved into place safely.

6. Retractable front door allows full access to devices and remains open when required without the door getting in the way.

2. Devices sit in roomy vertical compartments with high-density acrylic dividers.

7. Simultaneously synchronise devices using MDM software such as Apple Configurator, iTunes and others, saving time when deploying apps, setting up.

3. Individual LED lights indicate red when charging and green when the device battery is fully charged, reflecting through the perforated front door so you can tell the status of each device without unlocking.

8. Intelligent charging recognises the make and model of each device.

4. IEC socket with 1.8m / 6 ft power cord designed to snap out if pulled away from the wall to prevent damage.

9. USB ports are located in the rear lockable compartment, preventing cables being removed from the front device compartment.

5. Daisy-chain and stack three DeskCabby units together to charge 36 USB devices from a single IEC power cord.

10. DeskCabby can remain locked and secured during charging with the perforated doors and internal fan to keep devices cool.
