Inset door handles prevent protruding parts eliminating breakages.

Key locking system, tested by an independent locksmith, includes 6 plate lever activation system and double-sided key with two sets of teeth, making the lock more durable, impossible to pick and substantially increasing security.

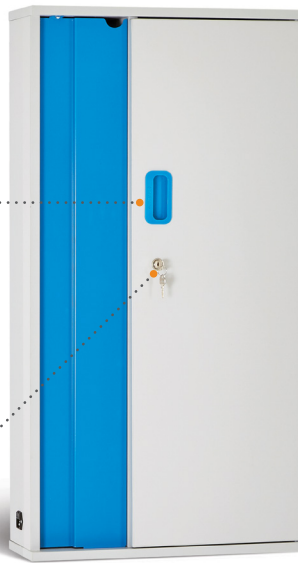

Cables feed from side power compartment to front device compartment via cable clip portholes, preventing cables being removed with the device.

Device adaptors plug into 1 x 10-way power strip designed and manufactured in-house. Simultaneous charging of all 10 devices to ensure devices are fully charged as fast as possible. Sockets accommodate larger adaptors and plugs without blocking adjacent outlets.

IEC socket with 1.8m / 6ft power cord

Isolated power compartment is secured with a 16-gauge steel cover panel, fixed with security screws, to conceal the electrical components and to prevent.

Wall hanging kit (supplied) includes all components need to fix unit securely with instructions.

Tablets sit in slanted steel shelves angled to enable the devices to be picked up and returned easily.

Silent ventilation system includes side and rear vents to keep devices cool with constant air circulation without the need for a noisy fan that can also spread germs.
