Inset door handles prevent protruding parts eliminating breakages.

Weight bearing L-shaped feet are fitted to the base of the unit to ensure air circulation and easy cleaning.

Key locking system, tested by an independent locksmith, 6 plate lever activation system and double-sided key with two sets of teeth, making the lock more durable, impossible to pick and substantially increasing security.

Isolated power compartment is secured with a 16-gauge steel cover panel, fixed with security screws, to conceal the electrical components and to prevent.

Cables feed from side power compartment to front device compartment via cable clip portholes, preventing cables being removed with the device.

Lyte 12mm Grey MDF fixed shelves.

IEC socket with 1.8m / 6ft power cord designed to snap out if pulled away from the wall to prevent damage.

Silent ventilation system includes side and rear vents to keep devices cool with constant air circulation without the need for a noisy fan that can also spread germs.
