

Phoenix DS2000K/DS2000E Series

Datacare

Designed to meet the requirement of a large capacity fire protection unit for computer diskettes, tapes and all forms of data storage. Suitable for use in residential or business premises.

- **Fire Protection (Data)** – Tested to Swedish NT Fire 017
 - DS2001 – 60dis standard, providing 60 minutes Fire protection for computer backup tapes.
 - DS2002 – 90dis standard, providing 90 minutes Fire protection for computer backup tapes.
 - DS2003 – 120dis standard, providing 120 minutes Fire protection for computer backup tapes.
- **Water Resistance** – Twin water resistant seals provide an airtight water resistant inner compartment for your computer media.
- **Locking** – Fitted with a high quality keylock supplied with two keys (DS2000K series). Fitted with an advanced high security electronic lock with clear LED display. To further enhance security the lock also features internal alarm, dual control, hidden code and scrambled code.
- **Drop Test** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **Special Features** – DS2002 and DS2003 are fitted with automatic slam shut locking. DS2001 supplied with four internal key hooks and DS2002 supplied with 3 key hooks.
- **Fittings** – DS2003 comes complete with height adjustable shelf and can be fitted with pull out media trays as an optional extra.
- **Colour** – Finished in a high quality scratch resistant paint RAL9003 White.

Internal Key Hooks
DS2001 & DS2002 only

IBM, OLIVETTI, HEWLETT PACKARD, TOSHIBA, ZENITH, APRICOT, APPLE - whatever the make, your expensively purchased computer is useless if your data has been corrupted by heat, dust, humidity, malicious or accidental damage.

FLOPPY DISCS, DISKETTES, DATA CARTRIDGES, HARD DISCS.

Magnetic media is sensitive, easily damaged and susceptible to low levels of heat or humidity. The manufacturers recommend maximum exposure to heat must not exceed 52°C or humidity level greater than 85%. It makes sense, therefore, to protect them.

Potential hazards are many. A cup of boiling tea or coffee, for example, at 100°C will seriously damage your media - probably destroy it!

Loss or damage by fire statistics suggest that 56% of all companies affected by it go out of business, because of vital lost trading information. This is an extreme - **BUT IT COULD HAPPEN TO YOU**. So what is the value of the data lost? How many hours, days, weeks, months did it take to compile? How many minutes will it take to lose? Phoenix Datacare is the answer. A secure, modern, attractive and highly tested cabinet next to the computer or work station will ensure your files are effectively protected. Phoenix Datacare safes have been extensively tested in both the UK and Sweden. The Swedish data protection test NT FIRE 017-120 Diskette requires a temperature of 1090°C to be maintained over 60 minutes. A model DS2003 in this test restricted internal temperatures to only 39°C, thereby exceeding the minimum test required by 25%. All Datacare DS2000K/DS2000E series are built to this exacting standard.

- **Dimensions stated as:**
 - A External height x width x depth
 - B Internal height x width x depth
 - C Door swing / Door Handle Depth
 - D Weight
 - E Capacity
 - F No. of Shelves
 - G Packaged Dimensions & Weight
 - H Internal Key Hooks
- **Datacare DS2001K/DS2001E**
 - A 420mm x 350mm x 430mm
 - B 220mm x 155mm x 200mm
 - C 305mm/30mm
 - D 43 kgs
 - E 7 ltr
 - F 1
 - G 505mm x 440mm x 530mm / 46kg
 - H 4
- **Datacare DS2002K/DS2002E**
 - A 680mm x 470mm x 470mm
 - B 380mm x 245mm x 195mm
 - C 541mm/30mm
 - D 91 kgs
 - E 18 ltr
 - F 2
 - G 705mm x 490mm x 530mm / 93kg
 - H 3
- **Datacare DS2003K/DS2003E**
 - A 850mm x 690mm x 720mm
 - B 485mm x 395mm x 405mm
 - C 609mm/30mm
 - D 240 kgs
 - E 78 ltr
 - F 2
 - G 870mm x 715mm x 770mm / 244kg
 - H 0
