

Phoenix DS4620K/DS4620E Series

Data Commander

Designed to meet the requirement of a large capacity fire protection unit for computer diskettes, tapes and all forms of data storage. Suitable for use in commercial business premises for large volume storage.

- **Fire Protection (Data)** – Tested to Swedish NT Fire 017 – 120dis standard, Providing 120 minutes Fire protection for computer backup tapes.
- **Water Resistance** – Twin water resistant seals provide an airtight water resistant inner compartment for your computer media.
- **Locking** – Fitted with a high quality keylock supplied with two keys (DS4620K) or R3 high security and user friendly electronic lock with clear LED display. To further enhance security the lock also features internal alarm, dual control, hidden code and scrambled code (DS4620E series).
- **Drop Test** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **Special Features** – DS4621K/E and DS4622K/E are fitted with automatic slam shut locking.
- **Fittings** – Each unit comes complete with height adjustable shelves and pull out media trays.
- **Colour** - Finished in a high quality scratch resistant paint RAL9003 White.

As part of our strategy to create the finest range of protection against fire and theft, we introduce the Phoenix DS4620K/E Data Commander Data Safe. This safe provides absolute protection for your data.

We know that fire strikes without warning!! But we also know there will be no warning of the theft or copying of confidential data or documentation. Overnight, a company's most expensive assets, research and development could fall into the hands of unscrupulous competitors, with potentially catastrophic results. Fitted with a high quality keylock supplied with two keys (DS4620K) or R3 high security and user friendly electronic lock with clear LED display. To further enhance security the lock also features internal alarm, dual control, hidden code and scrambled code (DS4620E series).

This safe has also been extensively tested by independent laboratories in both the UK and Sweden to provide 120 minutes fire protection at temperatures of 1090 degrees C whilst maintaining an internal temperature well below the critical temperature for media of 52 degrees C.

The unit is supplied with pull out media drawers and can also be specified with a complete range of optional sliding drawer units or shelves ensuring that every combination of media can be stored with maximum efficiency.

Maximum Data Capacities

Media Type	Media Size (mm)			Capacity (Q'ty)			
	Height	Width	Depth	Media per drawer	DS4621K/E	DS4622K/E	DS4623K/E
