

Phoenix FS1900K/FS1900E Series

Fire Commander

The Phoenix FS1900K/E Fire Commander series offers unrivalled protection for documents, data† and Cash.

- **Fire Protection (Paper)** - Tested to the Swedish NT Fire 017 – 120 Paper standard, providing 120 minutes fire protection for paper documents.
- **Fire Protection (Digital Media)** - Tested to DIP120 - 60DM fire test standard providing up to 60 minutes fire protection for DVD, Memory stick and hard drives.
- **Security Protection** - The safe is recommended for an overnight cash risk of £2,500.00 or £25,000.00 valuables*.
- **Drop Test** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **Locking** - Fitted with a high quality keylock supplied with two keys (FS1900K) or R3 high security and user friendly electronic lock with clear LED display. To further enhance security the lock also features internal alarm, dual control, hidden code and scrambled code (FS1900E series).
- **Lockable Drawer** - All sizes are fitted with a lockable drawer unit.
- **Colour** - Finished in a high quality scratch resistant paint RAL9003 White.

†When using Phoenix FSDPI03.

Phoenix FS1900K/FS1900E Series

Fire Commander

Fire strikes without warning! To combat this ever-present threat, Phoenix Safe Co Ltd has provided the ultimate in protection for irreplaceable company records and documents. In a furnace test, with the fire at an incredible 1122°C, the Phoenix Fire Commander safely protected its contents for over 180 minutes!

In addition, our engineers have produced not only the finest ever protection against fire, but the cupboard is attractively designed. This pleasing design disguises a safe of colossal strength, which can withstand the crushing pressures of a building collapsing upon it during a fire.

Fitted with a high quality keylock supplied with two keys (FS1900K) or R3 high security and user friendly electronic lock with clear LED display. To further enhance security the lock also features internal alarm, dual control, hidden code and scrambled code (FS1900E series). The single door models FS1901K/E and FS1902K/E also have the advantage of a "slam action" automatic locking mechanism for emergency use.

The large capacity of the FS1900K/E Series with internal capacities from 163 litres to a staggering 699 litres, is fitted with adjustable full width shelves and either one or two lockable steel drawer units.

The FSDPI03 is available as an option on FS1902K/E and FS1903K/E. This media container is necessary should you wish to store data, as data has a low critical temperature of 52°C. All data requires extra protection against not only heat, but water, airborne debris, humidity, toxic gases, superheated steam and smoke, all of which are always present during a fire. This sealed container ensures that the Phoenix Fire Commander FS1900K/E Series can successfully protect every type of document, whether it be in the form of paper records or data against even the most hazardous and damaging of fires.

File Capacity Chart

Type of document file	Total number of files per unit	Configuration	Total number of files per unit	Configuration	Total number of files per unit	Configuration
Series: FS1900	Model: FS1901		Model: FS1902		Model: FS1903	
A4 Lever Arch Folder (H320 x W75 x D290mm)	13	2 rows of 6 files 1 file on side on top shelf	25	3 rows of 7 files 4 files on on sides on top shelf	48	4 rows of 12 files
Foolscap Lever Arch Folder (H350 x W80 x D285 mm)	11	2 rows of 5 files 1 file on side on top shelf	23	3 rows of 7 files 2 files on on sides on top shelf	39	3 rows of 11 files 6 files on sides on top shelf
Foolscap Box File (H370 x W75 x D245mm)	12	2 rows of 6 files	23	3 rows of 7 files 2 files on sides on top shelf	40	3 rows of 12 files 4 files on sides on top shelf
