

FIRE-SAFE® CHEST

HD2100

The SentrySafe Fire-Safe chest is a perfect solution for protecting frequently accessed documents and valuables from threats of fire, flood and theft. Privacy key lock helps prevent unwanted access to items, while spacious interior and in-lid organization keeps items organized during storage.

FEATURES:

- Standard fire protection – UL Classified for Fire Endurance (½ hour at 1550° F/843° C), to protect documents, records and valuables stored inside from fire damage
- ETL Verified for ½ hour fire protection of CDs, DVDs, Memory Sticks and USB Drives up to 1550° F/843° C to protect precious media in the event of a fire
- ETL Verified for water submersion to protect valuable items and documents from flood damage
- In-lid organization provides easy access to digital media
- Accommodates letter and A4 size paper flat
- Privacy key lock helps prevent unwanted access to private documents and materials
- Includes two keys to provide back up access in case of emergency
