# SafeGuard UCS™

With the increasing number of tablets and other mobile technologies being deployed in such diverse sectors as retail, healthcare and education an increased demand for a professional, secure and flexible storage and charging solution has arisen. For Ergonomic Solutions, it is a natural next step to increase our value proposition with a storage and charging solution to protect our customers investment in technology.

The design and function of SafeGuard UCS is targeted primarily at tablet charging and storage with or without protective casings such as SafeGuard X-Frame and i-Frame. In addition, the UCS is also suitable for charging and storing various USB powered devices such as smart phones and mobile payment devices. The SafeGuard UCS is available in three cabinet variants to cover a comprehensive range of use cases, with either charge or charge and sync capability.

Features & benefits
Key lock
Stackable and bolt-down option for security
Versatile and flexible placement options: Floor, desk and wall with optional wheels
Three cabinet variants (S15, D15, D30) to cover a wide range of use cases. All variants with either charge- or charge + sync capability
Assembled with screws for enhanced security
ClickSafe compatible for additional security
Label place holder
Easy cable management
Retail hardened design and drawer system
Ventilated
Suitable for a wide range of cables and connectors
Integrated adjustable walls – secure long term use and protects the investment
Available with any country specific electrical connector type
Protective against liquids, impact etc.
Port control and monitoring possible
Power supply and electronics CE tested to EN60950
Short circuit protection, low standby power consumption (> 0,5W)
Ensures each device is charged at the optimal rate
Outputs 5,2V DC/2,1A per port
USB interface x 15
Single build dimensions: 600mm x 410mm x 310 mm; weight: 21kgs
Double build dimensions: 600mm x 410mm x 520 mm; weight: 31kgs
Protective foam inside – for securing fragile hardware
Supports extensive list of technology platforms and requirements
Optional wheels, optional dividing wall set for drawer management
2 year warranty

	Solution	Description	Connector type
	UCS-D15.C.B	Universal charging station Double build with 15 slots Charging via USB	w/ connector type B
	UCS-D15.C.E		w/ connector type E
	UCS-D15.C.F		w/ connector type F
	UCS-D15.C.G		w/ connector type G
	UCS-D15.C.I		w/ connector type I
	UCS-D15.C.J		w/ connector type J
	UCS-D15.C.K		w/ connector type K
	UCS-D15.S.B	Universal charging station Double build with 15 slots Charging and synchronising via USB	w/ connector type B
	UCS-D15.S.E		w/ connector type E
	UCS-D15.S.F		w/ connector type F
	UCS-D15.S.G		w/ connector type G
	UCS-D15.S.I		w/ connector type I
	UCS-D15.S.J		w/ connector type J
	UCS-D30.C.B	Universal charging station Double build with 30 slots Charging via USB	w/ connector type B
	UCS-D30.C.E		w/ connector type E
	UCS-D30.C.F		w/ connector type F
	UCS-D30.C.G		w/ connector type G
	UCS-D30.C.I		w/ connector type I
	UCS-D30.C.J		w/ connector type J
	UCS-D30.C.K		w/ connector type K
	UCS-D30.S.B	Universal charging station Double build with 30 slots Charging and synchronising via USB	w/ connector type B
	UCS-D30.S.E		w/ connector type E
	UCS-D30.S.F		w/ connector type F
	UCS-D30.S.G		w/ connector type G
	UCS-D30.S.I		w/ connector type I
	UCS-D30.S.J		w/ connector type J
	UCS-D30.S.K		w/ connector type K
	UCS-S15.C.B	Universal charging station Single build with 15 slots Charging via USB	w/ connector type B
	UCS-S15.C.E		w/ connector type E
	UCS-S15.C.F		w/ connector type F
	UCS-S15.C.G		w/ connector type G
	UCS-S15.C.I		w/ connector type I
	UCS-S15.C.J		w/ connector type J
	UCS-S15.C.K		w/ connector type K
	UCS-S15.S.B	Universal charging station Single build with 15 slots Charging and synchronising via USB	w/ connector type B
	UCS-S15.S.E		w/ connector type E
	UCS-S15.S.F		w/ connector type F
	UCS-S15.S.G		w/ connector type G
	UCS-S15.S.I		w/ connector type I
	UCS-S15.S.J		w/ connector type J
	UCS-S15.S.K		w/ connector type K
	UCS001	Add-on wheels	
	UCS002	Separating Web System add-on	

\* Please see list of country specific connector types overleaf

## UCS hardware guidelines

The table below lists the physical dimensions of hardware suited for the SafeGuard UCS solutions.

Solution	Hardware height	Hardware width	Hardware thickness
UCS-D15	Max. 350mm	134.5mm - 204.5mm	Max. 20mm
UCS-D30	Max. 350mm	123.5mm - 193.5mm	Max. 12mm
UCS-S15	Max. 350mm	103mm - 193mm	Max. 12mm

## Country specific connector types

Country	Connector type
Canada & Unites States	B
Belgium, France, Lithuania, Poland, Slovakia & Tunisia	E
Austria, Bulgaria, Croatia, Cyprus, Estonia, Finland, Germany, Greece, Hungary, Iceland, Italy, Latvia, Luxemborg, Madeira (Portugal), Netherlands, Norway, Portugal, Romania, Russia, Serbia, Spain, Sweden, Turkey & Ukraine	F
United Kingdom and Republic of Ireland	G
Australia & New Zealand	I
Switzerland	J
Denmark & Greenland	K

### Ergonomic Solutions

Founded in 1996, Ergonomic Solutions has grown rapidly to become a global leader in the design, manufacture and supply of the most ergonomically advanced mounting and security solutions for a wide range of in-store, and mobile technology for markets including retail, banking, mass transit, and hospitality. Ergonomic Solutions has long been at the forefront of workspace planning and optimisation and our influential Ergonomics Consultancy has advised many of the major European retailers how to create a workspace which optimises accessibility, usability, safety and comfort for their staff and customers.

Our suite of technology mounting solutions are designed to provide an ergonomic solution across a huge range of applications. From the shop floor to the management suite, we can deliver a solution that ensures that your IT investment makes the best use of the available workspace whilst simultaneously being protected from damage and theft.

Ergonomic Solutions owns all distribution and intellectual property rights to the Ergonomic Solutions corporate brand, as well as its brands SpacePole®, SpacePole Light® SpacePole Essentials®, SpacePole SafeGuard™, SpacePole ClickSafe®, SpaceServ®, DuraTilt® and MultiGrip™.
